Currently recruiting for….

Diversified Agriculture & Small Livestock Manager

This position is responsible for the overall planning and execution of all projects, initiatives, and functions of the Ka`a`awa Agriculture center. This includes but is not limited to the operational management, personnel management, and infrastructure management associated with the small livestock, orchard, shade house, and landscape feature operations. This position is also responsible for participating in the integration of all of these areas with the company tour operations and educational programs. Expectations on daily task execution include daily staff supervision, crop maintenance, animal husbandry, and general site maintenance/ upkeep and stewardship. Also includes planning strategies for maximum yield, organizing necessary administrative tasks, machinery and equipment upkeep, infrastructure maintenance/installation, and community and visitor outreach & education. Must also follow procedures and regulations for safe high-quality products raised in an environmentally sustainable manner. 3+ years agricultural (or related field) operations experience. College Degree in related field or life sciences preferred. 2+ years in a management role preferred. 1+ years animal husbandry experience preferred. Basic knowledge of carpentry, irrigation equipment, general land and water stewardship and basic construction. Ability to adhere to a general budget. Must be willing to work outdoors in a variety of weather conditions. Many activities require some physical labor. Open availability to include weekends and holidays. Valid driver's license with a good driving record.
